

Bravo instructions-

- Do not eat or drink anything after midnight the night before.
- Check with staff to see if you are to stop your acid reducers- Prilosec , Prevacid , Protonix, Aciphex, Nexium, Zegerid, Omeprazole, Lansoprazole, Pantoprazole, Dexilant
- If staff tells you to stop your regular medicine for acid reflux if needed you can use Over The Counter Zantac, Ranitidine, Pepcid, or Tums in the place of your regular acid reducer following the instructions on the box until the day before then you must stop all of these medications .
